— ✂ CUT ALONG THE DASHED LINE —

THE HOME 60-SECOND CHECK.

IF YOU CAN'T VERIFY THE SOURCE — PUT IT BACK.

6 INGREDIENTS TO REFUSE

-  Sodium tallowate — rendered animal fat in soap
-  Cera alba / beeswax — melted hive product
-  Lanolin / wool grease — sheep sebum
-  Bone china / bone ash — calcined cattle bone
-  Boar bristle — slaughtered boar hair
-  Down / feather fill — duck or goose

5 CERTIFICATIONS TO TRUST

- ✓ Leaping Bunny — gold standard
- ✓ BWC SA — SA national, ARB-recognised
- ✓ PETA Approved Vegan / CF
- ✓ The Vegan Society Trademark
- ✓ B Corp + Leaping Bunny together

3 TRAPS TO AVOID

1. "Eco" or "green" without Leaping Bunny — environmental ≠ cruelty-free.
2. "Faux fur" cat toys — rabbit fur is cheap and frequently mislabelled.
3. "Fine bone china" — contains 30–45% real cattle bone ash by regulation.

5 QUESTIONS TO ASK

1. Is there a cruelty-free logo on the bottle?
2. What's in the ingredient list?
3. What's the candle wax (soy, coconut, beeswax)?
4. Is the pillow "down" or "synthetic"?
5. Is the pet chew rawhide or plant-based?

IF IT'S UNCLEAR

Default to **no**. The product you didn't buy is the cleanest one.
